A farm stay in Tuscany

Programme

Day 1 – Benvenuti in Toscana
Arrival at Pisa or Florence airport, where your tour escort is already waiting. The tour escort will stay with the group throughout the entire journey.
The first taste of Tuscany comes immediately: a welcome drink at the agriturismo, surrounded by the quiet of the countryside. In the evening, dinner at one of the two agriturismo selected as accomodation, a family-run estate in the hills where guests are welcomed like old friends and the cuisine is genuinely Tuscan, made with produce from the land itself.

Day 2 – Vineyards, Truffles and Medieval Walls
The day begins in Monteriggioni, the walled village so striking that Dante mentioned it in the Divine Comedy. Its perfectly preserved circle of medieval towers is one of Tuscany's most iconic sights, yet far less crowded than its famous neighbours.
Then something your clients will talk about for years: at the Poggio Ai Laghi estate, a light lunch with wine tasting is combined with a ride through the vineyards aboard an original Italian military off-road vehicle: bumpy, fun, and utterly unforgettable.
In the afternoon, guests join a local truffle hunter and his dog in search of Tuscany's most precious treasure, followed by a crostini tasting with freshly found truffles.
Dinner at a typical restaurant with a beautiful view over the lake rounds off the day.

Day 3 – The Flavours of Vicopisano
Vicopisano is medieval Tuscany at its most authentic: a fortified village restored by the great architect Brunelleschi, still wonderfully untouched by mass tourism.
The day starts at a local olive oil mill, where guests learn how genuine Tuscan extra virgin olive oil is made and taste the difference for themselves. A walk along the ancient walkways of the fortress follows, then the flavours take over: a tasting of ribollita, Tuscany's beloved traditional soup, with a glass of wine and homemade tiramisù, followed by artisan gelato in the village.
In the afternoon, a visit to the museum of Pasta Morelli in San Romano, a family business making pasta since 1860 with the wheat germ still inside: a rarity that gives their pasta its unmistakable flavour.
Following the dinner that features three different pasta dishes by Pasta Morelli.

Day 4 – Monasteries, Steak and Alabaster
The morning is dedicated to the Certosa di Calci, a spectacular 14th-century charterhouse at the foot of Monte Pisano, often called one of Tuscany's most impressive monastic complexes, and one of its best-kept secrets.
Lunch in Cascina celebrates the region's most famous dish: steak prepared the true Tuscan way.
In the afternoon, a guided tour of Volterra, the ancient Etruscan hilltop town with over 3,000 years of history, including a visit to an alabaster workshop where craftsmen still work this translucent stone by hand, as they have for centuries.
Dinner at the other agriturismo, the group's charming countryside home.

Day 5 – Peccioli and Pizza
A visit to Peccioli, officially one of Italy's most beautiful villages ("Borghi più belli d'Italia") and a fascinating place where medieval charm meets contemporary art installations.
In the evening, the group gathers at the agriturismo they are staying for a hands-on pizza cooking class: flour, laughter and a wood-fired oven, followed by dinner enjoying the results together.
A perfect final evening.

Day 6 – Arrivederci
Transfer to Pisa or Florence airport, with luggage full of memories, and possibly some olive oil and pasta too.
